

# Expand Kit Ideas

Here are some examples of how to use our products in different configurations for your event. Use these ideas or create your own layout to meet the needs of your presentation, exhibit, road show, trade show, product launch, sales activity or outdoor event.

By using the Expand PodiumCase, you can easily transport your display to your event. Once at the event, it can be quickly transformed into a counter for your customers to gather around or use it as a podium to give your presentation. The Expand PodiumCase has optional inner shelves to hold extra brochures or anything you want to keep out of site from your customers.
